NEW SUNGLASSES DESIGN & STYLE CONCEPT

New concept is an improved modified shield style eyeglasses concept. It brings new fashion into party life, sports, every day wearing. Collection provided here consists of a lot of models and variations and will be extended with new ones.

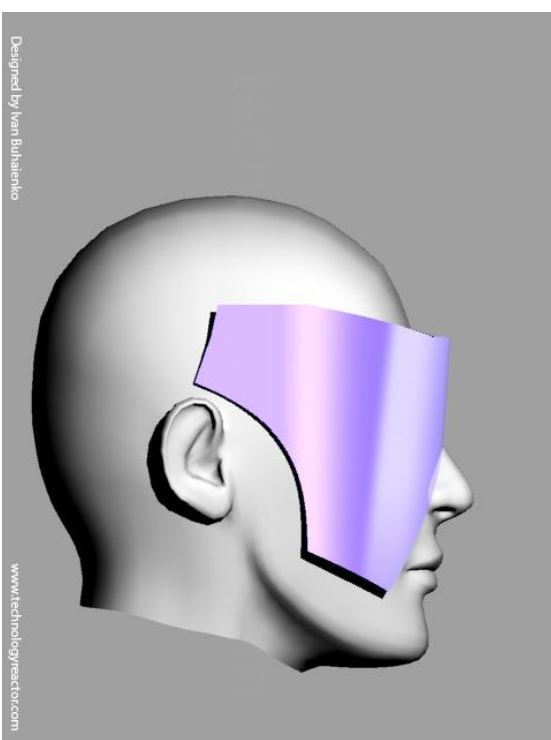

NEW DESIGN FEATURES

- **Stylish view**
Eyeglasses has very impressive specific look which catches attention of a public.
- **Augmented reality friendly**
Big glass size and total visible zone cover provides better unbroken augmented reality experience.
- **Wind and dust face protection**
Bigger surface protects face from wind, water and dust that is very important for riding and other sport activities.
- **UV face skin protection**
Bigger surface protects face not only from wind and dust but from UV radiation, that lets beauty to keep longer and keeps skin fresh and healthy.
- **Improved eyes protection**
New design sunglasses protect eyes from sun or other intensive light that is coming from sides, top and back. That is more comfortable for user and creates shaded cozy atmosphere of world sensation.

TECHNICAL FEATURES & VARIATIONS

- Solid, flexible or folding case
- Several glass sections models. Lenses and face protection sections or their parts are made of different materials for design and better user experience purposes
